

Heather Davis

SUMMARY

Software Engineering graduate with a background in healthcare and hands-on experience using and training others on electronic medical record software, CRM systems, and other workplace technologies. Experienced in communicating with patients and coworkers under pressure, learning new technologies and processes, and working in fast-paced healthcare environments. Seeking to apply my technical education, problem-solving skills, and customer service experience to a role where I can grow my skillset as part of a team.

WORK EXPERIENCE

Hospice Aide/CNA – Comforts of Home Hospice

August 2024 — Present

- Train new Hospice Aides on company policies, procedures, and electronic medical record (EMR) systems, adapting my teaching style to the needs of each person in training.
- Answer incoming calls and make outgoing calls throughout the day to communicate needs, updates, and answer questions.
- Maintain accurate digital documentation for every visit using healthcare software systems, ensuring clarity and HIPAA compliance.
- Adapt to new environments and challenges daily, demonstrating patience, empathy and problem-solving.
- Work independently in a fast-paced environment while managing multiple responsibilities.
- Communicate with patients, families and care teams to assist in stressful and sensitive situations.
- Coordinate needs between nurses, therapists and admin staff to support smooth delivery of care and prevent service failures.
- Review, interpret, and follow a plan of care for all patient activities.

Optometric Medical Assistant – Aspire Vision Care

March 2024 — June 2024

- Trained new Medical Assistants on company policies, the Electronic Medical Records (EMR) system, and the Customer Relationship Management (CRM) system, adapting my teaching style to the needs of each person in training.
- Entered and updated patient medical records in an Electronic Medical Records (EMR) system, maintaining data accuracy and consistency.
- Communicated clear, step-by-step instructions to patients to perform testing.
- Reviewed insurance coverage and created a waiver for patients to help them understand their coverage and necessary co-pays for contact lenses.
- Operated diagnostic equipment and general office equipment with attention to detail and care.
- Supported a small clinical team by organizing supplies, submitting orders, and preparing equipment.
